Subject: EDmarket ECLPS Certification, 2024-2025

I'd like to participate in the [EDmarket Certified Learning Place Specialist Certification Program \(ECLPS\)](#) for 2024-2025 to help our school/district improve our teaching and learning spaces.

ECLPS is a new comprehensive and research-informed certification program to elevate the learning experience of school districts and industry professionals tasked with planning, managing, and designing learning environments of the future. This certification program is owned and managed by the Education Market Association (EDmarket).

Participants in the ECLPS certification program will envision a new future for all learners by acquiring the knowledge and tools to ensure that investments in new and renovated learning spaces result in high-quality, collaborative, and healthy places to learn. The three-level program offers 30+ AIA LU, HSW, and PLU credits and certificates to meet professional development/continuing education requirements.

As a school employee, the ECLPS registration fee of **\$3,700** provides the following additional benefits:

- Complimentary [EDmarket Individual Membership](#) through December 31, 2025 (*applies to new members only; not applicable to renewals or company memberships*) — a **\$250 value!**
- Complimentary full conference registration to [EDspaces 2024](#) in Houston, Texas, November 12-14, 2024— a **\$450 value!**
- Complimentary membership in the [SchoolNetwork](#), a networking platform for K12 District Administrators to connect and collaborate nationwide.

During and/or after my participation in the ECLPS program, I'll be happy to submit a report with the major takeaways, tips, and recommendations to maximize the return on our current/future investments in innovative solutions. I can also share relevant information and contacts with other teams throughout our organization.

Thank you for considering this request.
