

EDMARKET CERTIFIED
LEARNING PLACE SPECIALIST

POWERED BY EDMARKET

Dealers & Independent Sales Reps.

How Can ECLPS Certification Benefit My Firm?

For the approximate cost of one conference, the attendee has the potential to obtain two calendar years' worth of professional education units — and receive a more meaningful engagement with peers, instructors, and industry experts to actualize this new knowledge. Generating an opportunity for an individual to receive an ECLPS certification benefits the entire organization by providing:

- **Enhanced Knowledge:** Applying product solutions for research-informed, intentionally designed learning spaces to achieve educational goals and positive learning outcomes.
- **Specialized Expertise:** ECLPS Specialists bring specialized knowledge and skills in designing effective learning environments, providing dealers with valuable expertise to assist customers.
- **Differentiation:** Dealers with ECLPS-certified specialists may receive industry recognition by offering enhanced value-added services and solutions tailored to educational settings through the understanding of the complex intersections between the science of how we learn and how design impacts learner experience.
- **Customer Confidence:** ECLPS certification can instill confidence in customers, demonstrating that dealers have staff who are knowledgeable about the connections between the science of learning and the intentional design of educational facilities and management best practices – enhancing consultation opportunities.
- **Long-Term Partnerships:** By delivering value-added services and solutions that enhance educational spaces, dealers can build long-term relationships with schools, districts, and educational institutions, leading to repeat business and referrals.
- **Professional Development:** Certification provides opportunities for professional development and growth, empowering staff to expand their knowledge and skills in educational facility design and management.

Requirements and Expectations

- **Course Overview:** A three-term commitment [fall, winter, & spring], 32 courses, bi-monthly LIVE Zoom calls, homework, and project submittals assessed for competency.
- **ECLPS Program Certification Cost:** EDmarket Members is \$3,700 / Nonmembers \$5,000
- **Flexible Learning:** Certification uses a Hybrid learning experience focused on andragogical principles.

Professional Development

- **Career Advancement:** Enhance one's credentials and prospects with ECLPS certification. Acquiring Continuing Education Units: 32 AIA-approved CEUs, 24 HSW's [Health, Safety & Welfare].
- **Collaboration:** Connect and become a part of a cohort network with other educational leaders and entity specialists to exchange ideas, resources, and best practices.
- **Generate Informed Decisions:** The individual's commitment to study this robust, research-informed content, and reach a confidence level to ask the better questions.
- **Access to the Education Market Association (EDmarket):** Certification opens doors to partnerships and collaborations within the EDmarket community.

Professional Development

EDmarket Certified
Learning Place Specialist
(ECLPS)

Is a research-informed leadership program providing a holistic framework, course-specific tools, and industry legends' expertise needed to effect positive change in future-focused learning environments helping improve student performance. The program is built upon generating a multidisciplinary dialogue enabling stakeholders across the three domain community entities [i.e., architecture/design/facilities; education leadership; industry partners] associated with the delivery of education to apply research insights for how the 'cueing' of designed spaces impacts human behaviors.
